"Times, of Course"

That's what all the newsboys say when asked which Barre paper sells the best. There is no doubt about it.

And now the teachers will be transformed into "hello girls."

Really, Carrie Nation is a better actress of the stage than on, but when will her "farewell tour" begin?

A Newport, N. H., wife-beater has just been given eight years for his conduct. Similarly inclined individuals please take notice.

It is estimated that it will take \$100,000,000, to run the city of New York next year, with Tammany driving. This estimate is an increase of nine millions over the expenditures this year.

A liquor dealer of Dummerston is charged with selling liquor to two young girls who bought for some men friends. If the charge is substantiated the full penalty should be imposed without hesitation.

The experience of the Swanton man, and also that of the Barre quarryman, proves beyond peradventure that powder and dynamite are not harmless toys to be handled with recklessness. Just as much peril lurks in them as in the days of the first invention of gun powder. And not only is the danger to those who handle the stuff, but to those not immediately connected. For instance, this Swanton explosion. Had the powder storage blown up with the rest the results to Swanton, only three-quarters of a mile distant, would have been indescribable. There naturally arises, the query whether enough caution has been taken in locating the Robin Hood plant so near the populous village.

It will be a thoroughly up-to-date arrangement when the public school buildings of this city are connected by a private telephone system. The requirements of recent years have demanded the installation of telephone connection, chiefly for the benefit of the superintendent of the schools. The eight buildings of the present system are for the most part widely separated and communication between them is limited by the ability to cover the intervening distance. But that makes, at best, a slow means of communication. Hence, the present project. The school commissioners consider that they cannot get what they deem reasonable rates from the New England company, and consequently they asked the city council to string wires for a private line. The latter very properly granted the request last evening. The cost of installing the system will be comparatively small, in fact, the commissioners assert that they will be able to pay for the outlay in two years, with the money which the New England company would have charged. The move is well made.

Barre is fast becoming the banner city of the state in the production of news. It's a poor day when the Granite City cannot send out an account of a murder, suicide, explosion or riot. Barre pays a heavy price, however, for the distinction she enjoys in this line.—Rutland News.

No, kind sir, Barre has no desire to snatch the mantle so gracefully and becomingly worn by Rutland. When it comes to a show-down on criminality and the like The Times will be pleased to compare Barre's record with that of Rutland or other cities in the state. Barre has had but one murder for years although in the contiguous territory of Washington county there have been several. Occasionally a Barre man does shuffle off this mortal coil more rapidly than nature intended; sometimes, owing to the nature of the chief industry here, an explosion of powder does occur. But what is that to the explosion of hot air daily in the Rutland News office? Nothing, sir, nothing. As for riots, we have had one, that sad affair of two months ago, in which a man lost his life, which affair included the only murder committed in Barre for ten years. When it knows the truth of Barre matters The News will have to admit that there are many "poor days" in Barre from a news-story point of view.

ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

The family of Governor McCullough will pass the winter at their residence in North Bennington instead of New York as has been reported.

The store of W. R. Worthington at No. Bennington was burglarized Sunday night. Money, jewelry and clothing to the amount of about \$150 were taken. Entrance was made through a window by breaking the glass.

During the past season 3,600 trout have been striped and about 600,000 eggs have been taken at the United States fish hatchery at Lake Mansfield. Mr. Merrill, who has been in charge of the hatchery, pronounced Lake Mansfield a very favorable place for the business.

Edward Clark, aged 70 years, widely known as a dealer in pianos and organs, died yesterday at Brattleboro. He had been ill for two years with heart trouble. Formerly he was a music teacher at Montpelier and afterward at Brattleboro. He was at one time salesman for the Estey Organ Co., but recent years he had been in business for himself.

W. H. Bingham of Brunswick, Me., is in Brattleboro this week in an effort to interest a larger number of farmers in raising sweet corn for the Snowflake canning factory owned by Baxter Bros., who also own canning factories in Westminster and Windsor. He also wants a large acreage for next season's business. The amount needed is 600. Heretofore the price paid has been \$12 a ton. From now on the price will be \$14 a ton.

The bondholders of the Northwestern Loan & Guaranty Co., in this state received Tuesday the final dividend of three and five hundred and twenty five thousandths per cent. This is the only dividend paid out of the funds of the defunct company. There have been other dividends of a different series, but the same have always been paid out of collateral security set apart for that series. It is estimated that at least a half million dollars of Vermont money went into this company.

The valuable barns on the farm owned by Levi J. Walbridge, situated about two miles from Cabot village on the road to Walden, were burned yesterday morning together with 200 tons of hay, 30 tons of feed, five hogs and a quantity of farm machinery. The fire was caused by the explosion of a lantern and spread so rapidly that it was impossible to check it. Practically all that was saved was a large part of the live stock. The loss is heavy the property being insured only for about \$15,000 in the Union Mutual company.

VICTOR IN LONDON.

Lord Mayor Gives Brilliant Reception to Italian King.

ONE AMERICAN IS PRESENT.

"Count" Ward Only Representative of United States in a Gathering of Royal Dukes, Peers and Cabinet Ministers.

London, Nov. 20.—The welcome of King Victor Emmanuel and Queen Helena of Italy to London as the guests of the lord mayor and corporation was of a remarkably cordial character. From the moment of their arrival at Paddington station, except when traversing Hyde park, the royal procession passed beneath one long canopy of bright colors, enhanced here and there by triumphal arches.

King Victor Emmanuel and Queen Helena, who came from Windsor in the Diamond Jubilee train, were met at Paddington by Lord Grenfell and the headquarters staff. After a brief inspection of the guard of honor of grenadiers, whose band welcomed the visitors with the Italian anthem, the king and queen, attended by the Duke of Portland, entered King Edward's full state landau, specially built for the coronation, drawn by six horses. King Victor Emmanuel wore the uniform of a general of Italian cuirassiers. The queen was dressed in a charming lilac silk costume, with a cream lace toque and cream velvet cloak. Five four-horse state carriages contained the suits. A sovereign's escort of the Life guards attended their majesties.

Proceeding through Hyde park, the king and queen reached the Italian embassy, where was stationed a guard of honor of Garibaldian veterans. Entering the embassy, their majesties held a reception and received addresses from the Italian colony.

Subsequently the cortege re-formed, and the Italian king and queen, after half an hour's procession through be-decked streets, reached the Guildhall without incident. On entering the library their majesties were greeted by a distinguished gathering, including the Prince and Princess of Wales, the Duke of Connaught, the Duke and Duchess of Argyll and other members of the royal family and many cabinet ministers, peers, members of the house of commons, etc. No diplomats were invited, with the exception of the Italian ambassador, and the only American noticed in the big crowd of upward of 800 guests was Reginald Ward, in uniform of consul of Roumania.

Brilliant Scene in Guildhall.
The scene at the guildhall was very brilliant. All the civilians were in levee dress, while naval and military uniforms of all kinds thickly dotted the apartment. The lord mayor, Sir James T. Ritchie, met the guests at the entrance of the historic city hall and conducted them to the library, where the corporation's address was presented in a gold casket, expressing lively satisfaction at the visit of King Victor Emmanuel and Queen Helena as a pledge of the continuance of the friendship of Italy and Great Britain and recalling with pride the visit of the former King Victor Emmanuel to Queen Victoria.

The banquet was then served. After the lord mayor had toasted King Victor Emmanuel and Queen Helena his majesty replied to the lord mayor, thanking him in behalf of himself and the queen for the splendid hospitality extended to them and for the address of welcome. He continued:

"You thus give me an opportunity of expressing our grateful acknowledgments of our cordial reception by the inhabitants of London, who understand the message of sincere affection of which I am the bearer to your beloved sovereign and to the people of England. These are sentiments of old standing between us. You have recalled, my lord mayor, words pronounced in this very place by my august grandfather half a century ago. Those were times of war, when the Italian nation was entering on the struggle for unity and independence. The sympathetic support lent to her by this free people in those days of trial created a tradition of mutual trust which has never ceased to animate the relations between the two countries. But we are now living under fortunate conditions of international peace, in the preservation of which Italy as well as England has become herself a willing and active factor. I trust the two nations will proceed united on the path of progress and civilization. With these feelings I raise my glass to you, my lord mayor, and distinguished representatives of the city of London."

Equal Distribution of Space!

Now Listen to This!

A perfect Shoe should contain not a single particle of space more than necessary, otherwise the Shoe becomes large and ungainly. The Dorothy Dodd Shoe leaves more space for the foot than any other Shoe we know of, yet the Shoe itself is absolutely smaller than the ordinary Shoe. That is because it equally distributes space.
